OBJECTIVE

Creative and self-starting Web Developer with 2+ years experience of building stable e-Commerce platforms and web apps in fast-paced environments. Proficient in React, Redux, Angualr, HTML-CSS, Firebase and modern JavaScript libraries/frameworks. Seeking to further improve my skills as the future full stack developer and will continue to contribute my overall knowledge as a developer.

WORK EXPERIENCE

Associate Product Developer

Innobliss Solutions Pvt. Ltd. - Devourin

📅 April-2019 to Present   📍 Pune

- Working with team on design, development and integration of secure, performant, reliable browser based single page applications and E-commerce Websites.
- Use my experience with front end development to define the structure and components for the project.
- Worked closely with clients and translate requirements into development to deliver high quality of product.
- Recommending solutions for a streamlined, user-friendly interface with the design team. Interact with the designer to suggest changes and to make sure the view he has about the design is translated into actual functionality.

Software Engineer

Relfor Labs Pvt. Ltd. - Bakeaway

📅 Sept-2018 to March-2019   📍 Pune

- Creating new features, functionalities and capabilities on e-commerce site using React-Redux.
- Performance tuning and providing fixes to the issues identified in testing scenarios.
- Translate business requirements into technical specification and implementation.
- Research and developed various modules in order to define usability of customers.
- Collaborated with product team members to implement new feature developments.
